

# HOW TO MEASURE YOUR FIRE PIT

## INSTRUCTIONS:

1. Grab Your Measuring Tape
2. Head out to your fire pit
3. First measure the Diameter of your burner (Red Line) and write down your results below.
4. Next measure your Fire Pit Opening Diameter (Blue Line) and write down your results
5. Lastly, Measure the width of the out outside ledge of your pit (Grey Cross Hatch) and write down your results
7. Take a picture of your Fire Pit
6. Head back to your computer and submit our Fire Pit Form containing all of the information from this sheet.
8. Get ready for your free consultation!

We look forward to making your fire vision come to life!

## Fire Pit Diagram

**Red Line - Diameter of Gas Burner (White Circle)**  
**Blue Line - Fire Pit Opening Diameter (Lite Blue Circle)**  
**Grey Cross Hatch -- Outer Ledge of Pit**
